

## Euromix Concrete Ltd Environmental Policy 2010

The Euromix Concrete Ltd Environmental policy shall be set by top level management and be implemented, operated and reviewed as appropriate to the nature and scale and environmental impacts of it's activities and products in accordance with the requirements of the current version of ISO 14001.

Euromix Concrete is committed to continual improvement in its environmental performance whilst working towards more sustainable operating practices. We will strive toward prevention of pollution and continual reduction of adverse environmental effects, thus supporting sustainable development. The company will always take account of the costs and benefits of the proposed initiatives applied to improving environmental performance.

This policy will ensure compliance with the Local Authority Pollution Prevention and Control Act 1999, relevant environmental legislation and regulations and other requirements to which the company subscribes. That the operation of our vehicle fleet complies with relevant legislation and that we comply with the targets and objectives set in our sustainability policy for the purchase and use of materials in the production of ready mixed concrete.

Euromix Concrete shall establish and maintain procedures to identify the environmental aspects of its activities and products that it can control and over which it can be expected to have an influence, in order to determine those which have or can have significant impacts on the environment. The organization shall ensure that the aspects related to these significant impacts are considered in setting its environmental objectives. The organization shall regularly review this information.

The policy provides a frame work for setting and reviewing environmental targets and objectives. To this end it is documented, implemented, maintained and communicated to all employees. The policy, environmental objectives, targets, improvement plans and management review documents are also available to the general public and other interested parties on our website [www.euromixconcrete.com](http://www.euromixconcrete.com)

## Environmental Policy 2010

### **Targets and objectives for 2011**

To implement ISO 14001 EMS systems to our production sites during 2011.

To ensure that cementitious products and aggregates are only purchased from companies that operate an ISO 14001 management system or comply with the requirements of BES6001.

To ensure that admixtures and additions for use in concrete are purchased from companies that already operate an ISO 14001 management system or are considering the implementation of an ISO 14001 management system.

To ensure that environmental objectives, targets, improvement plans and management review documents are also available to the general public and other interested parties on our website [www.euromixconcrete.com](http://www.euromixconcrete.com) by 24/12/2011.

To Minimise adverse environmental impacts from new and existing developments by integrating environmental management practices and procedures in the design phase.

To Minimise pollution, waste, and resource consumption at all levels in the organization.

To communicate our environmental policy to our employees and other interested parties.
